As skilled senior iOS app developer, I have developed many social & business apps for clients and companies. For 7 years, I have experienced with complex and challenge projects in Swift. For 10 years, I have developed iOS apps in Objective-C. But I prefer to use Swift for iOS app development now. Besides these skill, integrating backend APIs and networking speed up are my outstanding skills. Results-oriented software developer and research professional with 11 + years experience in both development and research positions. I make it my goal to create software with the user in mind, creating applications with a useable and intuitive user interface experience. I also understand the importance of creating highly readable and easily maintainable source code. I am constantly striving to learn new technologies and look to ways to better myself in this rapidly changing industry.

INDUSTRIES: Services

TECHNICAL SKILLS

• Swift	7 years
• Alamofire	6 years
• ObjectiveC	5 years
