+91 9820045154 | hr@talrn.com

Software Engineer with a demonstrated history of working in the information technology and services industry. Skilled in Swift (Programming Language),XCode, Apple User Interface design pattern and Leadership. Strong engineering professional with a Master of Computer Applications.

INDUSTRIES: Health and Fitness, Social Network

TECHNICAL SKILLS

- iOS — 3 years & 4 months

PROJECT DETAILS

- SleepOnCue — March-2021 - October-2021

Project Description: The app lets you enter the amount of time you have for a nap, as well as how long you want to sleep in your nap time. For a custom nap, it uses the same call/response (faint tone/slight shake) method, but once you fall asleep and stop responding to the tones, the app silently keeps going.
Responsibilities: From Scratch UI designing and API integration and third party libraries integration for rotation of uiimage in all directions
Technologies: Swift, xCode,Firebase,CoreAnimation
Industry: Health and Fitness
