PROJECT DETAILS

• AI Chat - Smart AI Chatbot

Project Description: Our chat application is a revolutionary chat platform that uses advanced AI algorithms to make your conversations more productive, efficient, and engaging. With powerful natural language processing technology, our chat app understands your messages and responds in a human-like way, creating a seamless experience for you and your contacts. Our app offers a range of features designed to simplify communication and enhance your experience. Here are the few key usages of our application, * Answering any questions * Content moderation * Personalized content delivery * Marketing analysis * Creative Writing, like writing poem or song etc. * Sentiment analysis of a text. * Writing essays, emails, resumes etc. * Virtual assistant * Product recommendation * E-commerce search optimization * Education and e-learning * And many more.
Responsibilities: R&D and making UI responsive after fetching the data from open API.
Technologies: Swift, Open API, Coredata
Industry: Information Technology
