As a highly skilled software developer with over 5 years of experience, I possess a unique blend of technical expertise, innovative problem-solving skills, and exceptional team-playing abilities. My proven track record of delivering top-quality software solutions, combined with my passion for working collaboratively with others, makes me a valuable asset to any team. With a strong focus on customer satisfaction and continuous improvement, I am confident that I can help your team achieve its goals and exceed expectations.

INDUSTRIES: Health and Fitness, Fintech

TECHNICAL SKILLS

• Swift	7 years
• Git	7 years
• UIkit	5 years
• SwiftUI	2 years & 6 months
• Kotlin Multiplatform	1 years & 6 months

PROJECT DETAILS

• Splendo Health — June-2022 - February-2024

Project Description: During my time at Splendo company, I had the opportunity to work on an exciting project called SplendoMonitor. This project is part of the larger SplendoHealth initiative and it involved developing an application that allows users to view real-time charts with data from various sensors such as Polar, VO2 Master, and Vascovid.

Responsibilities: I worked on the project using the Kotlin Multiplatform framework, with SwiftUI on the UI layer, and Kaluga as the key library. My responsibilities included developing the application and ensuring that it functions seamlessly. Specifically, I focused on developing the charts that display measurements from the various sensors, such as heart rate information. Overall, my time working on the SplendoMonitor project was a challenging yet fulfiling experience that allowed me to hone my development skills and contribute to a project that has the potential to improve people's health and wellness.

Technologies: Kotlin Multiplatform, SwiftUI, Combine

• Halyk Finance — December-2019 - August-2021

Project Description: Halyk Finance is the investment application of Halyk Finance, a subsidiary of Halyk Bank of Kazakhstan, a leading financial group and the largest retail bank in Kazakhstan with the widest customer base and service network.

Responsibilities: As the Lead iOS Developer at Remdev Studio, I successfully led a team of two developers, mentoring them on best practices and facilitating their growth in the industry. My expertise in Swift, RxSwift, and SwiftUI, along with my familiarity with Jira and Github, allowed me to drive the development of high-quality, user-friendly applications. I also implemented unit tests to ensure the reliability of our products. My achievements in this position include delivering top-notch iOS solutions that exceeded client expectations, and fostering a collaborative and supportive work environment.

Technologies: UIKit, RxSwift, Snapkit, PromiseKit

Industry: Fintech
